

PUBLIC NOTICE

The City of Shawneetown is applying to the Illinois Environmental Protection Agency (IEPA) for financial assistance under the Public Water Supply Loan Program – Emerging Contaminants Set-Aside.

The proposed project consists of providing point-of-use drinking water filtration units to households and community facilities within the City of Shawneetown to address contamination in the drinking water supply (including lead, per- and polyfluoroalkyl substances (PFAS), and other emerging contaminants). The project will distribute countertop water filter devices to approximately 505 homes and several public sites, ensuring residents have safe, clean drinking water.

A Project Plan detailing the project is available for public inspection at Shawneetown City Hall (330 N. Lincoln Blvd E, Shawneetown, IL) during normal business hours. Written public comments on the Project Plan will be accepted until October 6th, 2025.

Comments or questions should be directed in writing to:

Matt Martin, City Clerk

City of Shawneetown

330 N. Lincoln Blvd E

Shawneetown, IL 62984
